

Cheriton Deluxe

Experience Better Living

Freestanding

The Cheriton Deluxe combines the latest in Optiflame technology with multi-coloured flames and adjustable intensity, ranging from a soft, calming glow to a vibrant, pulsing flame. It transforms any room into a cosy retreat, creating a warm and inviting atmosphere that becomes the heart of your home.

Whether it's placed against a flat surface or integrated with a fire surround, its freestanding design makes it incredibly versatile. Plus, with the convenience of remote control operation, you can relax and enjoy the warmth and ambience it brings, all from the comfort of your chair. The Cheriton Deluxe is more than just a heater—it's a statement piece that enhances the atmosphere of your home, offering the perfect blend of style, comfort, and warmth.

- **Optiflame technology** - enjoy a highly realistic flame effect with vibrant, multi-colored flames and adjustable brightness levels, including a soothing pulsating option.
- **Freestanding design** - quick and easy to install, the Cheriton sits flush against a flat surface, offering flexibility in placement without the need for recessing or mounting.
- **Flame-only mode** - create a cosy atmosphere with the flame effect alone, allowing you to enjoy the captivating visual appeal without the heat. Offers a cost-effective way to enjoy your fire and is perfect for year round use.
- **Downlight & fuel bed illumination** - enhance the look of the fire with an optional downlight that beautifully illuminates the realistic coal fuel bed.
- **Remote control convenience** - adjust all functions, including flame intensity, heat output, and lighting, effortlessly using the remote control.
- **Classic aesthetic** - the Cheriton's black trim is complemented by a luxurious brass or chrome finish on the fret and trim, along with a real coal fuel bed for an elegant and timeless look.

Optiflame technology

A vibrant and realistic flame effect that adds depth and comfort to any space.

2kW heat output

Offering up to 2kW of heat via a fan heater.

LED lighting

Flames and lamps use energy-efficient LED lighting that requires no maintenance and can be used on flame effect only.

Fuel bed

Dancing flames rising over the realistic glowing coal fuel bed.

Variable flame brightness

Change the brightness of the flame effect with the choice of 3 settings and the option of a pulsating effect.

Choice of blue flame effect

Select the blue flame to mimic the look of a real flame.

Remote control

Controlling all functions of the fire.

Manual control

Can also be operated manually from controls under the canopy.

Thermostat

Automatically regulates the room temperature by turning fire on and off as needed.

Flame effect only

Enjoy the ambience of the flickering flame effect any time without the heat.

Built-in timer

8 hour programmable timer.
